 - Contact info.
 - Business and mailing address (if different).
 - Upload a W-9.

Rebate Redemption Guidelines

- Participating retailers are required to confirm the name on each E-Bike voucher matches the name of the E-Bike buyer by checking the customer's identification at the time of purchase.
- Rebates must be redeemed at the time of purchase.
- Rebates can only to be applied to the retail cost of the E-Bike or equipment, and cannot include tax, shipping or other fees.
- The E-Bike serial number must be entered into the online portal at the time of the sale.
- An itemized receipt noting the City of Bentonville E-Bike Rebate must be uploaded to the portal.
- If an E-Bike is returned, participating retailers must notify and return the rebate amount within 30 days. This rebate policy does not supersede your return policy.
- Equipment rebates are **ONLY** good for locks and/or helmets.

Reimbursement Process

- APTIM will reimburse redeemed rebates within 10 business days.
- The weekly cut-off to process rebates will be Monday at midnight.
- APTIM program staff will start the reimbursement process every Tuesday.
- Payments typically go out either Wednesday or Thursday.
 - ACH payments typically take two days to transfer.
 - Check payments via mail typically take between 5 to 10 days.
- Holidays may affect this payment process, and we may adjust when we process payments accordingly.
- Setting up ACH payments can take some time. Aptim's Accounts Payable Department does contact your bank to ensure that your bank routing information is correct. The first payment or two may be sent as a check, because we do not want to delay payment while verifying.

Return Process

- Should a bike be returned within 30 days, a new rebate can be issued to the customer.
- This return policy does not supersede the retailers normal return policy.
- If an E-Bike is exchanged for a different model retailers should notify us of the change via email. We can adjust the model, serial number and if needed payment amount for that redemption.
- If a customer wishes to return an E-Bike, in accordance with the retailer's policy, the retailer must notify the program. Provide the customer's name and rebate details.
- We will process the return in our system and issue a new voucher to the customer.
- The return rebate amount will be deducted from the retailers next payment. If no other rebate payments are expected the bike retailer will be required to return the amount via check to Aptim.

Proof of Purchase Requirements

- Participating retailers are required to submit a receipt or invoice for each rebate redemption as proof of purchase.
- Each proof of purchase document should include:
 - The make and model of the bike, or the name of the eligible safety equipment product.
 - The extended price of bike or equipment before applying the rebate.
 - The value of the rebate clearly applied to the sale.
 - The dollar amount paid by the rebate holder.
- Most retailers choose to treat the rebate as a payment type, others choose to list it as a discount or a negative line item.
